

# Actulum

THE VERSATILE ALL-ROUNDER

By Peter Opsvik  
1995

The pendulum movement of the Actulum makes it an all-rounder chair for work, dining and leisure. Inspired by the comfort of recliners, the designer created a chair for any table or desk that provides optimal flow and relaxation.

The wooden runners follow your body's natural movements, while the flexible joint of the backrest lets you lean backwards effortlessly. This subtle activity strengthens core muscles and prevents tension in neck and shoulders.
